Good morning Casey, Jake and Bill,

First, I would like to Thank you very much for your efforts on the Hanlin/Allied/Olin ARARs letter and specifically the NPDES Site specific numbers. Getting such a quick turn around on that is extremely helpful in keeping forward momentum going in our goal to achieve a ROD in 2019. It is truly appreciated!

Also, Since I think our project managers are communicating well, I would like to propose going to a bi-monthly Site status call. I would propose cancelling this Friday's call and picking up with our next call on September 13<sup>th</sup>. I will send out a new scheduler if you all are in agreement on the bi-monthly frequency. Please let me know.

Lastly, as you probably already know the Schaefer Equipment/Arbuckle Creek Area Site is planned for proposal on September 13<sup>th</sup>. I propose we schedule a separate meeting in the next week or two to discuss EPA's plans for the proposal and communications strategy, etc. Thanks.
